

We point out the minimum requirement of the foundation in our plans. The condition of the specific local situation (for example: ground under the foundation) does not lie our responsibility. If necessary an architect must be consulted.

Quality of concrete
C20/25 normal armouing

Prepared by customer at the operating unit:
power supply: 230V, 60Hz
fuse: 20 Ampere, time lag

Capacity: 9000 lbs

If ordering, the foundation plan or drawing number must be specified in the order

Dimensions and design changes reserved!
